

CAMPUS NOTES

Andrew Taylor, a junior at Newtown High School, was one of two Connecticut students awarded a \$20,000 scholarship to Quinnipiac University at the Connecticut Science Fair for his project, "Comparing Salt Marshes on the Long Island Sound Using Health Indices in *Fundulus Heteroclitus*." The fair was held at Quinnipiac University March 14-18. Andrew was selected as one of five students to proceed to the International Science and Engineering Fair in May.

Andrew's project has received previous science awards such as the Pfizer Life Sciences Fifth Place Life Science Award, the First Place Project Oceanology Individual Award, and the Excellence in Environmental Conservation Studies Award.
